ABOUT US

Gong was started in London over 15 years ago as a decoration shop on Portobello Road, later on Fulham Road as well, selling furniture, lamps, homeware and accessories with a contemporary ethnic style. Over the years we have developed several lighting collections of our own design with distinctive styles and materials.

The Metal collection was originally started by our business partner and friend Guillaume Evrard who sadly passed away in 2014. Guillaume designed the Dino and Peggy shapes taking inspiration from the 50's and artists such as Oppenheim, Mouille, Jakobsson, Almari. The lamps are entirely handcrafted, made of brass and metal. The shades come in various colours, all with a warm golden or silver interior. The Tarya models are the latest addition to our Metal collection.

We also offer a range of versatile teak chairs combining leather, cowhide and fabric in various colours with different teak finishes in a fusion of vintage and contemporary styles.

In memory of Guillaume.
